

Kelly bar and Drilling tools

We can supply all kinds of Kelly Bars compatible with Bauer, Soilmec, Mait, Casagrande, IMT and other drilling rigs.

Special Features

All Kelly bars are available in interlocking, full interlocking, friction and combined type. Length and Kelly stub can be required.

Specially selected steel pipes and use of special steel drive keys and locks are the key features of our Kelly bars.

Drive Keys and lock recesses with special designed structure, particular manufacturing process and testing in the lab and worksite guarantee long Kelly service life

Standardized square Kelly drive stub for connecting all types of drilling tools .

IMT AF160
Full-Interlock 47m

BAUER BG25 76m
Friction 76m

MAIT HR180
Inter-lock 40m

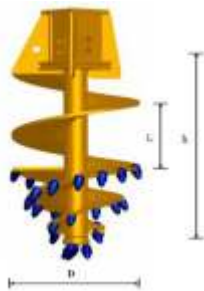

SOILMEC SR60
Friction 60m

Specifications

O.D (D mm)	No. of section	L (m)	Torque (kNm)	Drilling depth (m)	Drilling rigs matched with
508	4,5,6	10-16	360	36-90	XCMC,YUTONG,SANY,TEG
470	4,5	10-16	280	36-70	YUTONG,XCMG,SUNWARD,TEG,SANY
